**Senator Farris Re-Nominated.**  
The Democratic executive committee, of this district, met at Stanford Saturday and declared Hon. Geo. T. Farris the nominee, there being no other candidates. Mr. Farris has no opposition yet, but it is understood that the republicans will put a candidate in the field.

**Its Worth Trying For.**  
John Farra and the editor of this paper are at work on a scheme to get a train service that will give the people of Lancaster, Richmond, Stanford and all this immediate section the best accommodations of any towns in the state. Several gentlemen in neighboring towns are helping shove the matter, and it will be gone after in a way that we believe will bring forth fruit. The principal fight is to keep the present night trains in service, and the other plans will be given the public if they work out as desired. This item will doubtless cause a broad grin to spread over the countenances of many doubting Thomases, but what's worth having is worth working for, and you can bet your bottom dollar our armor is buckled on for a winning fight.

The Millinery Openings.

The usual openings of Spring Millinery took place in Lancaster Saturday. For several years past, it has been the custom of the local dealers to set a particular day, at which time all the stock is put on exhibition, and the rooms specially decorated for the occasion. This season they fairly outdid themselves, and those who examined the stocks pronounced them the handsomest and prettiest ever brought to Lancaster. At Noel Sisters' and Miss Sallie Tillet's special pains had been taken in the decorations, but Miss Dove Harris made no attempt at any fixing up, owing to her recent bereavement. The ladies were crowded in all three stores all day and a great many handsome hats were sold. **Two Prominent Colleges Unite.**

At the meeting of officials in charge of these colleges, held in Louisville last week, it was decided to consolidate the two institutions, removing the Richmond school to Danville, and taking the Danville Theological Seminary to Louisville. As the division of the schools was brought about by a matter long ago dead and buried, the folly of keeping their backs up longer has become disgusting to the public. This will be a big thing for Danville, but a special dispatch from Richmond states that the people there are a good over the proposed union and it understood there that if the combination can not be prevented in any other way, a strong fight will be made in the courts to prevent the removal of Central from Richmond. It is claimed that the Richmond people subscribed \$125,000 to have the university located there, and the college can not be moved unless the money is refunded.

# CENTRAL RECORD

EVERY WEEK BY  
LOUIS LANDRAM, Publisher  
LANCASTER, KENTUCKY

ONE YEAR IN ADVANCE \$1.00  
SIX MONTHS .50  
THREE .25

THURSDAY, APRIL 11, 1901.

The Stanford Journal, in which we learned our a b c's, prints the following kind words, which are duly appreciated:

Editor Louis Landram in writing of the 11th birthday of the Central Record, and the seventh anniversary of his accession to the trip, indulges in some timely suggestions about his people going away from home to bestow their patronage and not standing by home institutions. What he says of Lancaster applies to nearly every town. Bro. Landram has given his people a good, clean paper, and deserves their strongest patronage and most cordial support.

"To inhale long, deep breaths while slowly raising the arms above the head, and to exhale as slowly while lowering them is one of the best exercises ever invented," says an exchange. This may be true, but if a man or woman will put in ten hours honest, hard work six days in the week, they will have no time, inclination or need of such tomfoolery. You will get plenty of exercise if you will go to work and stick at it.

Up at Richmond the other night, Ex-Governors Bradley and McCreary, who had been enemies for some years, met in the Elk's lodge room, fell on one another's neck, kissed, buried the meat-axe and made up. The scene was applauded by the brethren, and as no fatted calf was at hand the lodge goat was duly slaughtered and a feast prepared. They are both good Elks, and members whom all the boys are very proud to call brother.

Miss ELVIRA SYDNOR MILLER, who writes the "Tattler" column in the Louisville Times, has been appointed passenger agent for one of the leading roads entering the Falls City. The many readers of her delightful writings will be glad to know that the new position will not interfere with her newspaper work. The Record wishes Miss Miller all success and smooth sailing in her new work.

HELP a dog out of a ditch and no matter what kind of dog he is—town dog, country dog, educated or illiterate, aristocratic or plebeian—he will wag his tail and praise and thank you for dropping of blood in his veins at your command, remarks an exchange. Help a man out of a ditch and what follows depends very much upon his breed. The more we see of a great many men the better we like dogs anyway.

GEN. J. B. CASTLEMAN met editor Walter Forrester on Market street in Louisville, and proceeded to whip the editor, a feat many misguided persons often attempt, but was knocked down by the quill-driver. Whipping an editor is much like the attempts to locate the North Pole, in that it has never been done, and, moreover, never will be.

KING OSCAR, of Sweden, is afraid to meet a funeral procession and wears always a gold ring, supposed to have power as a charm, which has come down from his ancestor Bernadotte. If his highness would carry a genuine Garrard county grave-yard rabbit's left hind foot, he would be safely shielded from ill luck.

DANVILLE and Richmond are chewing the rag over the removal of Central University. Wait, boys, 'til we get the great Southern railroad, and you will move the whole shooting match to Lancaster.

As many Kentucky editors as possibly do so, should take in the excursion to Pikes Peak next summer, as a visit to its summit will place many of our poor mortals closer to heaven than we will ever be again.

The Cynthia Democrat wisely suggests that the fate of the young men who attempted to take girls from Potter College, Bowling Green, should be a warning against pottering around.

An effort is being made to secure a cannery factory at Richmond. Our good neighbor always was good at rushing the can.

W. N. Beazley has invented a machine that runs without steam, electricity, or horse power. It is so arranged that it can be attached to a self-binder, wagon, buggy or any kind of a vehicle, it works with a lever on each side and two men can move anything that is moveable with it. He calls it the man power machine.

## The Best Remedy for Rheumatism.

Quick relief for pain.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr D. N. Sinks, of Troy, Ohio, says: Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until a was recommended by Messrs. Geo F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. The affair comprehends an interrupt elopement of five young women from Potter College, Bowling Green, one of the prominent seminaries for young women in the South.

About midnight five young men drove carriages to the college and with ladders aided the young women to leave the building by climbing through second story windows. While assisting the fifth to reach the ground, President Cabell appeared on the scene with a shot gun and began shooting at the young men who returned the fire. # A Cup of Good Coffee

To get a really good cup of coffee you'll have to start back of the actual making; you'll have to look to the roasting and the grinding. In ARBUCKLES' you have a coffee that's scientifically roasted, and delivered to you with all the pores of the berry hermetically sealed. You're sure of a good cup of coffee because all the coffee flavor and aroma are kept intact until you want it. The fame of ARBUCKLES' induced other coffee packers to put out imitations of it. These imitations cost the grocer (and you) a cent a pound less than ARBUCKLES'. But don't be tempted to buy a package of some other coffee when you can get

## Arbuckles' Roasted Coffee

for it is actually less expensive than the cheap kind; goes further—besides being better flavored, more satisfying.

You will find a list of useful articles in each package of Arbuckles' Coffee. A definite part of one of these articles becomes yours when you buy the coffee. The one you select from the list will be sent you on condition that you send to our Notion Department a certain number of signatures cut from the wrappers.

**Measuring Party.**  
 The boys of the base ball team, which is to compete for the championship in the Graded School Tournament, will give a "measuring party" at the school building tomorrow, Friday night, for the purpose of raising funds to help them buy a lot of needed paraphernalia. It will only cost you a few cents to attend, and you should go and encourage the lads. They are working hard to get in shape for the contest, and as we all want them to win, we should lend them all the assistance in our power. Refreshments will be served.

**Raising Funds for Parsonage.**  
 At the Presbyterian church Sunday Dr. McKee announced that eight members alone had given sixteen hundred dollars toward the new parsonage, and the canvass had just fairly begun. He said they wanted four thousand dollars, as it was the desire of the officers to erect a building of which the church would feel proud, and that it would be folly to build a cheap one with the expectation of improving it later on. He was much encouraged in the matter and said he was confident all the money would be forthcoming in a very short time.

**Was a Success.**  
 The ladies netted a neat little sum at the reception given in the Stores store room Saturday, and those who attended were well repaid for their patronage. The proceeds go toward the building fund of the proposed new Christian church. The ladies remembered The Racoon office with almost a water-bucket full of sherbert, cream and cake, which was greatly appreciated.

All sums under \$10 cash in hand, over that amount, a credit of six months will be given, purchaser to give note with good security. Sale begins promptly at one o'clock, p. m.  
 W. B. Jarvis.

**As Bro. Seth Campbell Sees It.**  
 Somerset Journal:—It is said by some that advertising is a hard bill to pay. So is a doctor's bill. The two are similar. If the doctor's prescription fails to bring prompt results, it is the same as an advertisement wrongly placed. The right dosage at the right time restores the patient. A dry ad misplaced is only a waste of good money. One dose rarely cures a sick man. One little ad is about as worthless. If well, you don't need the doctor. If you have all the trade you want, never advertise. Medicine taken by another will rarely help you. Neither should you expect a competitor's ad to help your business.

**Stood by His Post.**  
 Richmond Pantagraph:—But for the thoughtfulness of Mr. John Rucker, engineer at Hume distillery, Silver Creek, there would have been serious damage if not loss of life when the boiler burst one day last week. When it became known that the boiler had burst there was a speedy rush by the employees for the outside. Every man deserted his post except Mr. Rucker, who stood Casibianian like and risked his life to save the building. The brave engineer ran to the water pump and flushed the boiler. This reduced the steam and cooled the boilers, thus preventing a terrific explosion. The Distillery Company will keep Mr. Rucker steadily in charge. When operations cease at Silver Creek he will be transferred to Paris.

**Open Session.**  
 The week of prayer and self-denial observed by the C. W. B. M., closed Sunday evening with an open session at the Christian church. A very enjoyable program was rendered, which reflected credit upon the participants. One of the most pleasing features was the music furnished by the choir, which was beautiful and inspiring. Mrs. R. L. Elkin delighted all, however, with an address which was all that could be desired in practical suggestion and lofty sentiment, showing natural ability and careful preparation. Mrs. Burnett, a new, but capable and willing worker in our ranks, read, in a clear and impressive style, a selection on, "What the Century has wrought for woman, in India." Mrs. McRoberts' plea for new members was presented in choicest words, and she brought out in a striking manner woman's capability and willingness to lend a hand in every crisis of the world's history. All felt that a finishing touch was needed to make even more impressive all the good things that had been said, so Bro. Moore was called upon, and right well did he respond to the duty of the hour. His talk was brief, but his words so well chosen, and earnest, so full of love for missionary effort, that we feel we have in him a promoter of every cause that glorifies the Master. When the mite boxes were collected, it was found they contained \$15.80, which sum will be used toward the maintenance of an orphan girl in India, who has been adopted by the Lancaster C. W. B. M. It doesn't always take eight quarts of beer to make a peck of trouble.

**The New Hemp Machine.**  
 The new hemp breaking machine, which belongs to the Galveston, (Tex.) Fibre Company, was tested last Thursday at the Experimental Station of the State College, at Lexington. The following extracts of the result of the experiment are taken from the Lexington Herald:

It was generally admitted by the farmers that the work of the machine was satisfactory and compared favorably with hand-broken hemp; that there was very little waste, and that better staple hemp could be assured by this means than by adhering to the old system of dew rotting and hand breaking.

Furthermore, the crops could be harvested and worked at a time when it would be impossible to make any attempt with the old system, and thereby prove more economical and of greater advantage to the farmer.

Towards the end of the day a short time test was set, and the machine run almost to its full capacity, and resulted in an average output of three hundred pounds per hour, or three thousand pounds per day of ten hours.

The above showing proved very satisfactory, as the present machine is of much less capacity than the new machines that are being built to take off next year's crop. Every machine requires one man to feed the fiber; a third man may be employed in tying the hemp into bales and baling; the horse power required is small, varying from two to five horse power, according to the toughness of the hemp.

During the day several hundred persons visited the hemp field and examined the machine and its work. Hemp in the future will be handled as follows: In due season the stalks must be cut and laid to dry for a few days, then raked and stacked a short period, sufficient to allow the fiber to thoroughly sweat, after which the machines are brought and placed in convenient position near the stacks and the fiber decorticated or broken without rotting.

 We want it good and we give you value received, as is every bottle of Dr. Caldwell's Syrup Pepsin, no matter be it 10c, 50c or \$1.00, as we guarantee it for Constipation, Indigestion, Sick Headache and Stomach Trouble. R. E. McRoberts Druggist.

**FOR MEN ONLY.**

Not because women should not read this, but because it's about men's shoes. If you've read so far—keep on. Two-thirds of your life is spent in your shoes, and solid comfort for 1 of your life is worth thinking about—Isn't it?  
 We have some brand new styles of men's shoes made by Peters Shoe Co. that will give you the solidest kind of comfort—because they FIT. Most people don't pay enough attention to fit because so many shoes won't fit. A good fitting shoe is comfortable all the time. Then again, it WEARS—because the strain comes where provision is made for strain. You can snap a chain with a jerk with half the strain that it would stand in a straight pull. Same principle applies to shoes. Get a shoe that fits and it will outwear a shoe that does NOT fit.

Peters' shoes FIT. That's one of their strong points—and we have the assortment that enables us to fit you exactly.

All the latest styles, of course—and the best leathers.  
 Prices—anywhere to suit your pocketbook. Is foot comfort for 16 hours out of 24 worth thinking about? Is it worth talking about with us?

R. F. BROWN, of Wash. D. C., writes: "Many of my wife's friends have used 'Mother's Friend' before confinement, and say they would not pass through the ordeal again without having it, even if it cost her per bottle."

Sent by express paid on receipt of price, \$1.00 per bottle. Book, "Motherhood," written especially for young and middle-aged women, mailed free. Sold by all DRUGGISTS.

I will exchange some good springers and fresh cows for ewes. J. C. Siler.

The Chicago corn market for May delivery reached the highest record price 44c.

Plants need a good deal more water as the days grow longer and warmer than they do in mid-winter.

For Sale—Two or three fine sows and pigs. Also some good springer cows. G. A. Swinebroad.

There will be between 50,000 and 100,000 additional acres of land devoted to rice culture in the South next year.

Billy Burton shipped a load of horses to Memphis, Tenn., Tuesday, for which he paid from \$75 to \$150. They were a top lot.

The cars loaded with oranges sent out last month from southern California would have made each day a train a mile and a half long.

At the public sale of Shorthorns held March 22, by Donahy at Newton, Ia., 45 females averaged \$245.40 and 14 bulls averaged \$120.35.

In one or two localities in the State the "mad itch" has appeared among the cattle. It starts in the hoof, causing pain that drives the animal mad.

G. A. Swinebroad will buy all kinds of live stock, and has on hand at all times live stock for sale. Will trade, swap or barter.

A Fayette county farmer sold his tobacco crop, 100,000 pounds, at ten cents. The thousand dollars is a nice little sum to realize on one little crop of tobacco.

J. V. Boyd & Son, of Shelbyville, have sold to Scott Isbell, of Southville, Ky., an eleven months old Chester Duroc, dam a thoroughbred. Price \$300.

Mr. W. R. Munsinger, of Iowa, recently sold on the Chicago market a car load of grade Herefords, averaging 1,275 lbs., for \$6.25. He says they netted him \$73.17 each.

Skin troubles, cuts, burns, scalds and chafing quickly heal by the use of DeWitt's Witch Hazel Salve. It is itchy. Be sure you get DeWitt's. F. P. Frisbie.

Any man can make \$10 a day for three days put in on extra disking and dragging of almost any ten acre field of corn before planting. A crop of corn is not as well understood as it should be.

A car load of 5,000 chickens from Kentucky arrived at Philadelphia Friday. There were 1,000 roosters among them and they frequently managed to crow all at once making an indescribable noise.

Jesse R. Letton, Millersburg, Ky., has sold and shipped to J. B. Bicknell, the great sheep man of Breckinridge, Mo., a pair of fox hounds, to be used for protecting his sheep from wolves.

Ten hogsheads of Mason county Burley sold at the Peoples House at an average of \$9.58 per hundred, the best bds. of the crop bringing \$11.50; one hogshead brought \$11.25, two \$10; the lowest price of the crop being \$7.90.

Spring lamb, raised in hot-houses, sells at thirty cents a pound in New York. It comes chiefly from Salem, N. J. The sheds in which the lambs are covered with glass to give them the benefit of the sun. The lit-

tle animals are so frail that exposure to the winter would kill them.

The California orange crop is enormous, and millions of oranges are rotting in packing houses and in the groves for lack of transportation facilities. The railroads claim that they carried 50 per cent more than last year, and that the trouble is with the size of the crop.

The noted race mare, Olivette, who landed first money about twenty-five times and foaled such good horses as Joe Levi, Myrtle K., Addalelle and Song, Rondo's dam, is dead. Olivette was owned by George Lindenberg, of Louisville, Ky., and had been sent to Lexington, Ky., to be bred to St. Julian.

Mr. John white, of Bettis, delivered a most excellent crop of hemp of 3,000 pounds to H. A. B. Marksbury & Son, sold at \$5 per 112 lbs. The fibre was fine and thread like in substance, nicely cleaned and well handled. The yield about 1,600 pounds to the acre. Mr. white's two sons deserve great credit for the handling of this crop of hemp.

"I have been troubled with indigestion for ten years, have tried many things and spent much money to no purpose until I tried Kodol Dyspepsia Cure. I have taken two bottles and gotten more relief from them than all other medicines taken. I feel more like a boy than I have felt in twenty years." Anderson Riggs of Sunny Lane, Tex. Thousands have testified as did Mr. Riggs. F. P. Frisbie.

The Farmers Home Journal says the poultry business has started many good business men on the road to success. The boy on the farm that can raise a few pennies can go into poultry raising in a way that he can make some money out of it. Look out for the boy who likes to work with the poultry and make it pay. He will make a business man some day, if he has a chance.

Say, you farmers who have a good brood mare, don't forget to breed to a good horse this year, a good general purpose horse, one of nice style, pleasing gait and sufficient speed. Never mind about the cost of the season, breed to something good. Horses are getting scarce again and by the time you raise a colt from this year's breeding it will be the most profitable thing on the farm. Don't get the idea into your head that there is nothing profitable on the farm but tobacco. There has not been big money in the horse but he always pays for himself, and he is going to bring more money, and you can't get along on the farm without him. Don't let this season go by without breeding the best mare you have to the best horse you can find, and you won't regret it—Warsaw Independent.

"I had piles so bad I could get no rest nor find a cure until I tried DeWitt's Witch Hazel Salve. After using it once, I forgot I ever had anything like Piles." E. C. Boice, Somers Point, N. Y. Look out for imitations. Be sure you ask for DeWitt's. F. P. Frisbie.

Why men drink is what staggers a woman; but it is what they drink that staggers the men.

The best way to warm fowls early in the morning before the scalded feed is given, scatter a little grain in the litter and let them scratch. It is better than red pepper.

A Testimonial from Old England.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life, she having been a martyr to bronchitis for ever six years being most of the time confined to her bed. She is quite well." Sold by R. E. McRoberts, druggist.

If it were literally true that whisky fills our jails, lots of men couldn't be kept out of them.

You will waste time if you try to cure indigestion or dyspepsia by starving yourself. That only makes it worse when you do eat heartily. You always need plenty of good food properly digested. Kodol Dyspepsia Cure is the result of years of scientific research for something that would digest not only some elements of food but every kind. And it is the one remedy that will do it. F. P. Frisbie.

It isn't always to a man's credit to stop drinking—sometimes it is to his lack of credit.

The Best Blood Purifier.
